

The Wayne County Land Bank is now selling abandoned properties!

Visit our auctions website at <http://www.waynecounty.com/wcauctions/>

The Wayne County Land Bank is a governmental authority whose purpose is to transform unproductive properties into a productive use, in addition to managing abandoned, underutilized, or blighted property. We envision a safe, clean, green and prosperous Wayne County and the Land Bank is an effective tool to get us there!

The Land Bank wants to encourage investment, revitalization, and rehabilitation throughout Wayne County. To do this the Land Bank will create a number of programs to:

- * Provide cash reimbursements to owners to rehabilitate their property (TURBO Program)
- * Sell abandoned property at affordable rates
- * Work with developers, investors, and non-profit organizations to provide economic support for new developments
- * Demolish and maintain blighted property to create cleaner, safer neighborhoods
