R 330.7003 Informed consent.

Rule 7003. (1) All of the following are elements of informed consent:

(a) Legal competency. An individual shall be presumed to be legally competent. This presumption may be rebutted only by a court appointment of a guardian or exercise by a court of guardianship powers and only to the extent of the scope and duration of the guardianship. An individual shall be presumed legally competent regarding matters that are not within the scope and authority of the guardianship.

(b) Knowledge. To consent, a recipient or legal representative must have basic information about the procedure, risks, other related consequences, and other relevant information. The standard governing required disclosure by a doctor is what a reasonable patient needs to know in order to make an informed decision. Other relevant information includes all of the following:

(i) The purpose of the procedures.

(ii) A description of the attendant discomforts, risks, and benefits that can reasonably be expected.

(iii) A disclosure of appropriate alternatives advantageous to the recipient.

(iv) An offer to answer further inquiries.

(c) Comprehension. An individual must be able to understand what the personal implications of providing consent will be based upon the information provided under subdivision (b) of this subrule.

(d) Voluntariness. There shall be free power of choice without the intervention of an element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion, including promises or assurances of privileges or freedom. There shall be an instruction that an individual is free to withdraw consent and to discontinue participation or activity at any time without prejudice to the recipient.

(2) A provider shall establish written policies that include procedures for evaluating comprehension and for assuring disclosure of relevant information and measures to ensure voluntariness before obtaining consent. The policies and procedures shall specify for specific circumstances the types of information that shall be disclosed and steps that may be taken to protect voluntariness. The procedures shall include a mechanism for determining whether guardianship proceedings should be considered.

(3) Informed consent shall be reobtained if changes in circumstances substantially change the risks, other consequences, or benefits that were previously expected.

(4) A written agreement documenting an informed consent shall not include any exculpatory language through which the recipient, or a person consenting on the recipient's behalf, waives or appears to waive, a legal right, including a release of a provider or its agents from liability for negligence. The agreement shall embody the basic elements of informed consent in the particular context. The individual, guardian, or parent consenting shall be given adequate opportunity to read the document before signing it. The requirement of a written consent shall not eliminate, where essential to the individual's understanding or otherwise deemed advisable, a reading of the document to the individual or an oral explanation in a language the individual understands. A note of the explanation and by whom made shall be placed in the record along with the written consent.

(5) A consent is executed when it is signed by the appropriate individual.

The presumption may be rebutted only by court appointment of a guardian or exercise by a court of guardianship powers and only to the extent of the scope and duration of that guardianship. A provider shall do all of the following:

(a) Presume the recipient is legally competent if he or she does not have a guardian. A provider shall also presume a recipient with a limited guardian is legally competent in all areas which are not specifically identified as being under the control or scope of the guardian.

(b) Not institute guardianship proceedings, unless there is sufficient reason to doubt the recipient's comprehension, as provided under these rules and the policies and procedures of the provider.

(c) When a recipient's comprehension is in doubt, justification for petitioning the probate court for guardianship consideration shall be entered in the recipient's clinical record.

(d) Not petition for, or otherwise cause the filing of, a petition for guardianship of greater scope than is essential.

(e) Petition or cause a petition to be filed with the court to terminate a recipient's guardian or narrow the scope of the guardian's powers when the recipient demonstrates he or she is capable of providing informed consent.

(b) Arrangements with state and local election officials are made to provide voter registration and casting of ballots for interested recipients at the facility or may elect to encourage the use of absentee ballots.

(c) Facilities shall assist election officials in determining a recipient's place of residence for voting purposes.

(d) Facilities shall not prohibit a recipient from receiving campaign literature, shall permit campaigning by candidates, and may reasonably regulate the time, duration, and location of these activities. A facility director shall permit a recipient to place political advertisements in his or her personal quarters.

(6) A recipient shall be permitted access to religious services and worship on a nondiscriminatory basis. A recipient shall not be coerced into engaging in religious activity.

(7) A recipient's property or living area shall not be searched by a provider unless such a search is authorized in the recipient's plan of service or there is reasonable cause to believe that the recipient is in possession of contraband or property that is excluded from

the recipient's possession by the written policies, procedures, or rules of the provider. The following conditions apply to all searches:

(a) A search of the recipient's living area or property shall occur in the presence of a witness. The recipient shall also be present unless he or she declines to be present.

(i) A recipient who has been admitted by medical certification or by petition until after a final adjudication as required under section 468(2) of the act.

(ii) A defendant undergoing examination at the center for forensic psychiatry or other certified facility to determine competency to stand trial.

(iii) A person acquitted of a criminal charge by reason of insanity while undergoing examination and evaluation at the center for forensic psychiatry.

(c) Initial administration of psychotropic chemotherapy may not be extended beyond 48 hours unless there is consent. The duration of psychotropic chemotherapy shall be as short as possible and at the lowest possible dosage that is therapeutically effective. (d) Additional courses of chemotherapy may be prescribed and administered if a recipient decompensates and again poses a risk to himself, herself, or others.

(9) A provider shall ensure that only medication that is authorized in writing by a physician is given to recipients upon his or her leave or discharge from the providers program and that enough medication is made available to ensure the recipient has an adequate supply until he or she can become established with another provider.
